# ARGENTA PLUS™ ORGANIC FERTILIZER

## ARGENTA PLUS™

**GUARANTEED CONTENT W/W**  
**Total Organic Matter 39%**  
**Organic Carbon 17%**  
**Organic Nitrogen 2%**  
**Free Amino Acids 3%**  
**pH 4-6**

## FACT SHEET

### FERTILIREY SERIES

#### AT A GLANCE

##### FOLIAR APPLICATION:

**Open field vegetables**  
150-200 ml/100Lt.

**Greenhouse vegetables**  
100-150 ml/100Lt.

**Citrus, fruit trees**  
200-250 ml/100Lt.

**Industrial Crops, wheat, cotton, corn, potatoes, sunflower**  
200-250 ml/100Lt.

**Vineyard, melon, watermelon, strawberries**  
150-200 ml/100Lt.

**Ornamental plants, cut flowers**  
100-150 ml/100Lt.

Soil application: 1-2 Lt./2.5 acres. 3-4 applications per season from vegetative development period to ripening period.

**ARGENTA PLUS** is an organic liquid fertilizer that is derived from specially selected vegetal amino acids formulated to promote rapid green energy to all plants by providing optimum nutrition uptake in adverse soil and difficult weather conditions.

ARGENTA PLUS is a dual-mechanism product that positively affects yield quality and soil structure.

Argenta PLUS contains high rates of free L-Aminoacids with an aminogram that will promote metabolic and enzymatic activity and cell division, as well as increase the strength mechanism of the plant under stress conditions. Various stress conditions such as weather conditions, sensitive phenological development process, pesticide damage can occur. Amino acids and polysackaritis improve the structural formation of the product (cellulose) and energy storage capacity.

Argenta PLUS is plant growth regulator that contains Humic-Fulvic acids and organic substances that enables the strengthening of soil structure by promoting factors such as prevention of fluid loss in the plant, cation exchange capacity, ventilate, less fertilizer need, and soil structure. All these activities make Argenta Plus a special product, which will be used to improve the structure of the soil, which will directly effect foliar applications and the development of the root system in particular.
