SUNOLIVE™

GUARANTEED CONTENT W/W

- Water soluble Boron (B) 4%
- Water Soluble Iron (Fe) 3%
- Water soluble Zinc (Zn) 1.5%

FACT SHEET

FERTILIREY SERIES

AT A GLANCE

FOLIAR APPLICATION:

Sunflower
100-150 gr/100Lt.

Olive
200-300 gr/100Lt.

For best results apply 2-3 applications from the vegetative development period to the period of fruit ripening.

SUNOLIVE is a special water soluble powder concentrate designed specifically for olive and sunflowers with a custom blend of boron, iron and zinc.

SUNOLIVE increases the internal and external production in homogeneous fruit when used before flowering.

SUNOLIVE used during the fruit development period substantially improves the quality and the taste of fruit and grain.

SUNOLIVE's unique blend also works great on post-harvest applications of perennial plants.
