# TROPIX™ EQUATOR FERTILIZER

## TROPIX™ HI-CROP

## FACT SHEET

### CROP MASTER™ SERIES

**HI-CROP®** is an organically approved liquid foliar fertilizer formulated for maximum vegetative growth and superior yield in tropical climates.

HI-CROP® is approved as per organic standards as well as IFOAM accredited international organic standards and European organic standards EC834/2007.

HI-CROP® is a Certified Organic fertilizer formulated for all types of crops grown in high temperature conditions. It easily dissolves in water and is rich in plant based compounds and essential minerals & trace elements that include organic nitrogen, potassium, and natural proteins.

HI-CROP® acts as a plant tonic when applied to a various tropical crops at various growth stages, it rapidly corrects nutrient deficiencies and generates stronger and healthier plants which improve plant development and helps to optimize yield potential. It also acts as a chelating agent for soil nutrients. It is suitable for all crops and applications including field crops, Vegetable and flower gardens, orchards and turf grass.

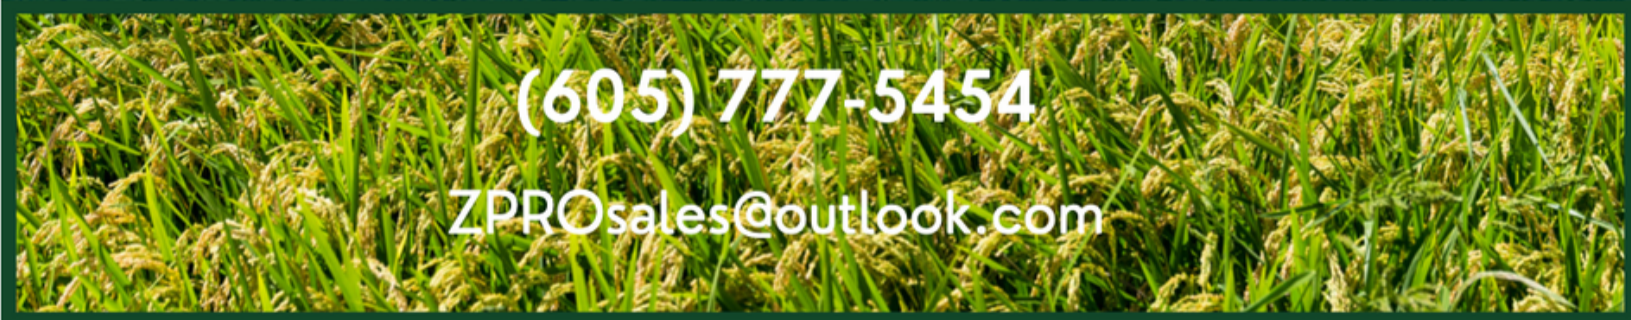

#### TROPIX™ Hi-Corp Advantages:

- Improves the nutrient and micro-nutrients availability in the plant.
- Increase branches, flowering and fruiting.
- Regularize photosynthesis and nitrogen absorption.
- Converts maximum flowers in fruits.
- Improves plants SAR (systemic Acquired Resistance).
- Improves fruits size and texture.
- Improves fruit keeping quality and test.
- Increase harvesting period so more yield and weight.
- It can be applied mixed with foliar fertilizers, insecticides, fungicides and herbicides to use as foliar spray. Promotes the opening of the stomata on the leaves and ensures penetration of the foliar fertilizers and pesticides in to the plant.

#### APPLICATION RATE:

For all crops 2ml to 4ml per lit of water according to crop development stage.

Can be applied from nursery to harvesting.
